

Level 2 Certificate in **Awareness of Mental Health Problems**

Course overview

Did you know one in four British adults experience at least one diagnosable mental health problem each year? The most common is mixed anxiety and depression, but there are many other issues which have a huge impact on a person's life and the people around them.

Anyone who works around people with mental health problems needs to understand each condition fully. Likewise, anyone who has seen someone experience mental health problems would benefit from understanding the meaning, causes, effects, symptoms and management of the condition. This nationally recognised qualification covers all of these aspects and is the perfect place to start.

Level 2 Certificate in Awareness of Mental Health Problems

Who is suitable?

The qualification is suitable for anyone who wishes to increase their knowledge of mental health problems, the factors that cause mental ill-health and the ways that mental health problems can be managed. The course is also suitable for those who already work in this area, anyone who wants to secure a job linked to mental health and anyone who wants to gain more knowledge for personal reasons.

Learning method

Studying via distance learning means you can choose when and where you study.

This course is available:

Paper-based

Paper-based learning with online assessments.

no exams
just assessments
